

DATA 608 Module 5

Results of Module 5

Jun Pan

- After running python code of file:
module4_5.py
- In Spyder of Anocando.
- Then open the website:

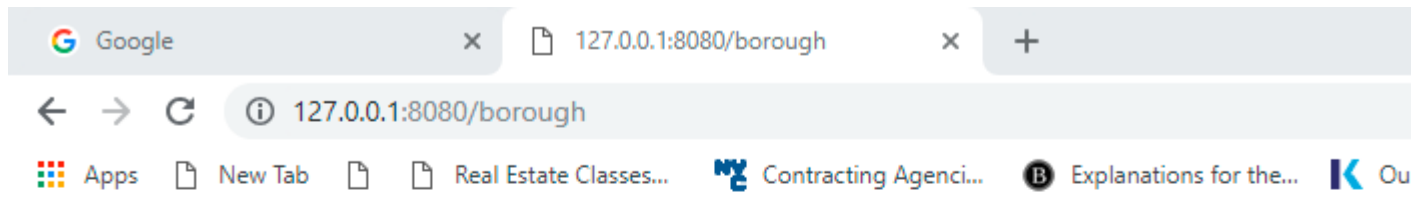

<http://127.0.0.1:8080/>

API Information

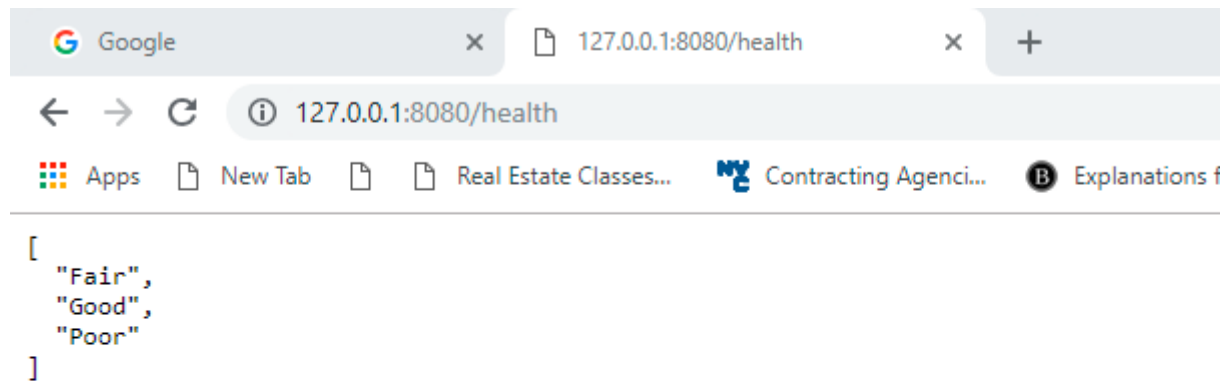

URL	Parameter	Description
/	-	Shows current page
/borough	-	Shows the Borough of trees
/borough	{type}	Filters Borough based on parameter type
/borough	{type}/limit/{limit}	Filters Borough based on parameter type and limits result based on limit
/species	-	Show trees species
/species	{type}	Show trees information based on type
/species	{type}/limit/{limit}	Show trees information based on type and limits data using limit
/health	-	Show trees health types
/health	{type}	Show trees based on health type
/health	{type}/limit/{limit}	Show trees based on health type and limits data using limit

Five boroughs
